

WESTCARB Annual Business Meeting

WESTCARB Welcome

Martha Krebs
WESTCARB Executive Director
California Energy Commission
(916) 654-4878; MKrebs@energy.state.ca.us

*Anchorage, AK
October 1, 2008*

Who Is WESTCARB?

- One of seven regional public-private carbon sequestration research partnerships funded by the U.S. Department of Energy. WESTCARB is also funded by the California Energy Commission and participants.
- More than 80 organizations comprising:
 - Resource management and environmental protection agencies
 - National laboratories and research institutions
 - Climate project standards organizations and other nonprofits
 - Oil and gas companies; power companies; pipeline companies
 - Colleges and universities
 - Trade associations and policy coordinating bodies
 - Service firms and consultants
- Led by the California Energy Commission

WEST COAST REGIONAL CARBON SEQUESTRATION PARTNERSHIP

Meeting Objectives

- Review WESTCARB carbon sequestration studies, research advances, and field tests
- Obtain feedback and guidance from WESTCARB partners
- Learn about commercial project development activities by WESTCARB partners
- Discuss implications of research/test findings and commercial project developments on policymaking, and vice versa
- Identify new opportunities for WESTCARB to provide value to partners
